

Secular

Party of Australia

In *BRISBANE* Vote **1** ROSE

The **Secular Party of Australia** is concerned about the rising influence of religion on government policy. We wish to establish and maintain a true separation of church and state in Australia.

WE STAND FOR:

- Proper funding and support of public schools, not government funding of faith based schools
- A Charities Commission to ensure that only genuine charitable activities enjoy tax-exempt status
- Ending legal discrimination against Australian citizens, such as denial of same-sex marriage
- Ensuring that immigrants have attitudes compatible with Australian values, such as gender equality and respect for human rights
- Investment in alternative energy technologies to counter our declining fossil fuels and to reduce CO2 levels
